

THE COLLECTION

A SOLUTION FOR THOSE SEEKING INDIVIDUALITY.

ARCHITECTURAL METALS AUSTRALIA

THE COLLECTION

Architectural Metals Australia (AMA) offers products of distinction, parallel to none in quality and aesthetics. It's AMA's mission to provide the Australian and New Zealand construction industries with authentic Italian sheet metal; encouraging greater material selection for designers, builders, installers and manufacturers.

THE AMA STORY

AMA is a rapidly expanding distribution business, importing pre-painted aluminium and titanium zinc from Italy. By selecting Italian metals, AMA are able to offer materials intentionally designed for European style cladding and roofing profiles.

Based in Braeside, Victoria, with more than 30 years' experience in the sheet metal industry, AMA is backed by a team of architectural product experts, who believe in offering incredible materials, supported by specialist service.

Eye catching, unique, like nothing seen before - that's AMA.
