

A photograph of a modern building's exterior. The facade is composed of vertical orange-colored panels. To the right, there is a glass entrance with a dark frame. Above the entrance, there are large glass windows reflecting the sky and surrounding buildings. In the foreground, there is a paved walkway made of light-colored rectangular tiles, and a section of green grass with a geometric pattern. On the left side of the image, there are several overlapping, semi-transparent geometric shapes in shades of orange and pink.

THIS IS AMA.

# THE AMA STORY

**Established in 2012, Architectural Metals Australia (AMA), is expanding material design freedom across Australia and New Zealand. AMA import Italian sheet metal, designed specifically for architectural applications.**

AMA is the brainchild of Victorian based rainwater goods manufacturer, Bayside Flashing & Ventilations Pty Ltd. and sister company, Metal Cladding Systems Pty Ltd. Towards the end of 2011, leadership teams from both businesses began to pool their 30 plus years' of experience. They started researching what their local roofing and cladding industry was lacking, to identify potential opportunities to better contribute.

After analysing their own experiences, speaking with peers, installers, builders and design professionals, they discovered quality products were abundant, but material diversity and reliable, onshore stock, was void.

Today AMA is a rapidly expanding distribution business. AMA provides solutions for those who seek individuality.

# WHY MAZZONETTO AND ZINTEK®?

In 2011, AMA's founding partners began researching Australia's metal cladding and roofing material market; investigating if the shortcomings they had encountered were anomalies, or if there was an opportunity to resolve these deficiencies and offer something greater.

A comprehensive understanding of the material landscape, what was needed and what wasn't working, was gained by speaking with architects, builders, roofers, cladding manufacturers and installers.

Research revealed an industry flooded with identical materials. Quality was abundant, variety was void. Expert support, reliable lead times, and professional partnerships were also lacking.

In addition to material diversity, premium product, supported by genuinely helpful experts, capable of delivery on their word, was also needed.

In 2012, AMA forged an official distribution partnership with Zintek®, an Italian based manufacturer of titanium zinc. In 2014, an exclusive partnership was established with Italian manufacturing giant, Mazzonetto Spa. This new relationship, expanded AMA's collection to include Vestis pre-painted aluminium.

AMA's supply network was carefully selected and qualified, ensuring each manufacturer matched, or surpassed, technology expectations, product performance prerequisites, and aesthetic individuality. AMA also looked to partner with businesses who believed in creating unique materials, backed by superior levels of service.

Trusted distribution alliances with Mazzonetto and Zintek®, means reliable local stock management, high calibre technical product understanding, continual material development and access to Italy's finest artistic metal coils.

## THINK AMA, THINK ...

:: UNIQUE MATERIALS FOR SPECIALIST APPLICATIONS

:: EXCLUSIVE EUROPEAN DISTRIBUTION PARTNERSHIPS

:: TRUSTED SUPPLY NETWORK

:: DEDICATED ARCHITECTURAL TEAM, FOR PROJECT BASED MATERIAL SOLUTIONS

:: IN-HOUSE CLADDING AND ROOFING EXPERTS

:: DEDICATED PROMOTION OF AMA MATERIALS AND AMA CUSTOMERS

:: PERSONALISED SERVICE AND SUPPORT FOR ALIGNED STOCKISTS

:: ABILITY TO FOLD AND MANUFACTURE CLADDING AND ROOFING PANELS, IF REQUIRED

:: PRODUCT INDIVIDUALITY

# THE COLLECTION

AMA offers a metal collection intentionally designed for European style cladding and roofing profiles. Most commonly Vestis and Zintek® are specified and folded into standing seam, interlocking, nailstrip and flatlock systems; as well as custom artistic features and metal work projects.

## VESTIS ONE

Vestis One, Mazzone's K2 range of pre-painted aluminium, offers three patina look finishes; Verde, Copper and Grigio. Verde and Copper simulate a natural copper aesthetic; capturing and mimicking stages of the material's aging process.

In partnership with Mazzone, AMA designed Vestis One's fourth addition, Black Graphite. A low-maintenance, robust alternative to black zinc, and a spectacular pre-coated aluminium product in its own right.

Vestis One's 35 micron coil coating ensures UV stability, and surface durability.

Coil width: 1200 mm

Thickness: 0.80 mm

Material hardness: H41 or H44

Coating: High durability polyester paint

Warranty: 40 years\*

\*Additional thicknesses (0.70 mm - 1.00 mm) and custom colours available on request. Import lead times apply.

\*All finishes available in stucco surface texture. Import lead times apply.

\*Warranty subject to project location and application.

Vestis Black Graphite

Vestis Grigio

Vestis Verde

Vestis Copper

# VESTIS NEBULA

Vestis Nebula is an exciting development in pre-painted polyester coatings and the newest addition to AMA's range. Nebula Storm, Nebula Midnight and Nebula Luna, posses 3D qualities, evoking spectacular material depth and texture. Nebula is modern sophistication paired with unexplainable magic.

Coil width: 1200 mm

Thickness: 0.80 mm

Material hardness: H41 or H44

Coating: High durability polyester paint

Warranty: 40 years\*

Nebula Midnight

Nebula Luna

\*Additional thicknesses (0.70 mm - 1.00 mm) and custom colours available on request. Import lead times apply.

\*All finishes available in stucco surface texture. Import lead times apply.

Nebula Storm

## ZINTEK® ZINC

Zintek® zinc was AMA's first product. Its unique etched surface, set an aesthetic and quality precedent for future material selection. Zinc offers an incredible natural aesthetic. Zintek® easily folds into multiple cladding and roofing profiles and becomes a project focal point on every installation.

Coil width: 1100 mm

Thickness: 0.80 mm

Material hardness: HV 45

\*Additional thicknesses (0.60 mm - 1.00 mm) import lead times apply.

# MAKING AVAILABILITY WORK

There's nothing worse than waiting for what you need. That's why AMA aims to deliver in-stock coils, next day for Victorian metro customers, and between two and four days for all other states and territories.

Strategic supply and freight partnerships enable AMA to effectively manage stock levels, accomodating European lead times, with no inconvenience to customers.

Collaborative relationships with Australian and New Zealand stockists, means AMA can offer tailored service packages, catering to each businesses individual needs.

**AMA, expanding creative  
material availability.**

**A solution for those seeking individuality.**

## **CONNECTED, FROM CONCEPT TO COMPLETION**

AMA looks at construction as a whole. Trusted relationships, active industry networking and accurate project involvement, are equally important as distributing quality architectural products.

As a sister company to Bayside Flashing & Ventilations Pty Ltd. and Metal Cladding Systems Pty Ltd., AMA is backed by some of the roofing and cladding industries finest. With more than 100 collective years experience, AMA's service is as unique as its product offering.

Specification, account management and marketing teams, work directly with customers, architects, builders, developers, installers and manufacturers, to ensure when individuality is sought, AMA is there.
